## **The Vicar's Letter**

June begins on Sunday 4th with one of the major Christian Festivals - Whitsunday or Pentecost.

For Christians, Pentecost is a special day on which we commemorate the coming of the Holy Spirit on the early followers of Jesus. Before the events of the first Pentecost, which came a few weeks after Jesus' death and resurrection, there were followers of Jesus, but no movement that could be meaningfully called 'the church'. So from an historical point of view, Pentecost is the day on which the church was started. This is also true from a spiritual perspective, since the Spirit brings the church into existence and enlivens it. Pentecost is the church's birthday - and we all love a birthday party !

The English word 'Pentecost' is simply a transliteration of a Greek word which means 'fifty'. It comes from the ancient Christian expression which means the 'fiftieth day', marking seven weeks since the resurrection of Jesus.

So that explains Pentecost. But what about Whitsunday ?

Historically, some churches receive new members on Pentecost, commemorating the first 'new members class' that joined the church after Peter's Pentecost sermon. Centuries ago in Britain, those joining the church wore white for baptism. Thus, the Sunday was called 'White Sunday' or 'Whitsunday'.

So that explains Whitsunday ..... but what about today ?

For Christians today, the Holy Spirit is the living presence of Jesus with us on earth that enables us to live our lives and fulfil the mission God has given us. It is the power of God's love at work within us - the greatest birthday present anyone could ever receive.

Come and celebrate with us ! Best wishes, Mike.

## **Confirmation**

We have managed to secure a date for a Confirmation Service on **Sunday 10 September** at 11.00 am at St George's Church Nailsworth, when Bishop Robert of Tewkesbury is booked to come. Confirmation is a significant step as people take up for themselves the promises made for them at Baptism.

We shall be holding some group sessions for those interested to explore the Christian faith together before taking this step (all ages welcome). Those interested in being involved please get in touch on Tel. 01453 836 536 or on e-mail at:

### **Planning Applications**

- Spring Cottage, Binley Farm - erection of two storey and single storey rear extension.
- Lasborough Park, Tetbury - minor changes to approved scheme for glass-house.
- Bagpath Court Cottage - compliance with remaining conditions.

### **Planning Approvals**

- Bagpath Court Cottage - minor changes to approved scheme for replacement dwelling.

### **Vegetation overhanging public footpaths**

Now that trees and shrubs are coming into leaf, weighing down the branches, it is necessary to check that the public footpaths are not obstructed either from above or from the side. Serious accidents can occur when pedestrians step unexpectedly into the roadway to avoid them.

If property owners do not trim such growth, the GCC Highways Department may do so in a more drastic manner.

### **Churchyard Working Party on 10 May**

On behalf of the PCC, Jane Nichols and Harry Tubbs thank the splendid team of village volunteers who gave an afternoon of their time and a lot of horsepower to spreading and sorting the large pile of trenching waste from the footpath excavation. The weather could not have been more favourable.

The heroes were: Graham Nichols, Philip Nichols, Rick Bond, Sebastian Cooper, Brian McTear and John Moore - not to mention the trusty Home Farm JCB.

There is still some hand sorting and raking to do before we put down some grass seed and allow the graves to slumber again in peace.

### **Richard Dawkins Again**

*In an interview with Tom Whipple reported in The Times on Saturday 13 May 2017 Richard Dawkins expresses his views on several things including, inevitably, God.*

Following a public debate in 2013 with the former Archbishop of Canterbury Lord Williams, he commented "He's a delightful man. So nice it's almost impossible to argue with him. It was never actually clear to me why he disagreed with me."

In a subsequent report on the debate he asked why -

"the architect of the universe, the divine mathematician, deviser of the laws of physics, of quantum mechanics, of the carefully tuned physical constants, this paragon of superhuman intellect, was unable to think of a better way to forgive the sins of one species of African ape than to have himself tortured and killed as a blood sacrifice?"

However he emphasises that he is still convinced that there is no higher power along the lines described above, and reported that he is now trending towards being a vegetarian, but not in a way which would offend polite company.

## **The Atheism Delusion**

Until around 1930 when Hubble detected that the universe was continuously expanding, it had been possible for non-believers to regard the universe as a fixed although evolving material entity. It was convenient for those thus inclined to regard 'creation' as a non-issue, raised by world religions as an intellectual and spiritual concept. Dazzled by the achievements of science, one could behave as one wished without any concern as to whether a God was watching or cared.

By the end of WW2 however scientists had concluded that Hubble was right; and the '*Big Bang*' had arrived, providing a truly 'Biblical Sized' creation model. Back-calculation predicts that it occurred around 13.8 billion years ago. This does not align with the actual Biblical accounts written by the early prophets of Israel, but one could observe that without the scientific insights now available, they did not do a bad job. British Iron-Age thinkers probably did no better.

Obviously the *Being* which /who initiated the Big Bang leading to the creation of the universe was unimaginably clever and powerful. The scientists, who now work to understand creation, sometimes seem to suggest when they have explained one of its mysteries that they could have 'done it themselves'. But the creator (from nothing) of the universe has powers beyond those of any human, and the recorded historical events of the life and resurrection of Christ would, as they say nowadays, be '*No problem*'.

The evolution of living creatures, described by Darwin and Dawkins as being a process of 'random accidents' leading to mutations which then compete in the survival of the fittest, may not be as accidental as they suggest.

*Harry Tubbs, Churchwarden*

## **A more authoritative view !**

If you wish to have a more authoritative and no doubt more reliable view on the subject of Science and Faith, there is a lecture sponsored by the University of Gloucestershire on Tuesday 13 June at 6.00 pm. This will be given by the very respected Christian theologian Alister McGrath entitled 'Richard Dawkins vs C S Lewis on the meaning of life'.

This will be held in the University Chapel at Francis Close Campus, Swindon Road Cheltenham, GL50 4AZ. Refreshments served from 5.00 pm.

Alister McGrath is Professor of Science and Religion in the Faculty of Theology and Religion at the University of Oxford.
